Profile Summary

Highly motivated Computer Science Engineering student with expertise in Python, SQL, Java, and Web Development. Skilled in Project Management, Critical Thinking, and Teamwork, with a passion for problem-solving and continuous learning.

Education

Bachelor of Engineering - Computer Science Engineering

SJC Institute of Technology, Chikkaballapur (2021 - Present) | CGPA: 7.9

Pre-University (12th Grade)

Sri Chaitanya PU College, Bengaluru (2020 - 2021) | Percentage: 80%

SSLC (10th Grade)

Nalanda Vidya Peeta, Maddur (2018 - 2019) | Percentage: 89.7%

Technical Skills

Python, Java, SQL, HTML, React.js

Database Management: Oracle SQL, MySQL

Software Development & Web Development

Project & Time Management, Critical Thinking

Training institute: CODEGNAN DESTINATION

Projects

Handwritten Character Recognition

Developed a Machine Learning model for recognizing handwritten characters using Python, TensorFlow & OpenCV. Achieved high accuracy in character classification.

Data Flow of CIE Management

Designed an automated data processing system to improve efficiency in internal evaluations.

Drowsiness Detection

Developed a drowsiness detection system using machine learning to enhance laboratory safety by detecting signs of fatigue in real time. The model accurately identifies drowsiness and alerts the user to prevent accidents.

Extra-Curricular Activities

Badminton: Competitive player in local tournaments.

Trekking: Passion for adventure trails and nature.

Traveling: Exploring diverse cultures.

Reading: Enthusiastic reader of various genres.
